Salary: Negotiation

ABOUT ME

I'm a passionate and self-motivated Full Stack Web Developer from Myanmar with over 3 years of practical experience in web development since 2021. I specialize in building responsive, user-friendly websites and applications using technologies like JAVA(Basic ,OOP), HTML, CSS, JavaScript, React, React Native(Basic), PHP (Laravel), Flask (Python), and SQL.. I'm also experienced in working with APIs, GitHub for version control, and modern UI frameworks like Bootstrap, Tailwinds, GSAP and many other libraries.

I hold the ITPEC FE certification and have completed Harvard's CS50x course, which strengthened my foundation in computer science and software development. I'm eager to work in professional, multicultural environments and highly interested in opportunities with Japanese companies, both locally and abroad. I'm committed to continuous learning, team collaboration, and delivering clean, scalable code.
